

Big Sky Call Centers
Grace Industries Lone Worker Facility
Protection Products

The Grace **SC 300** Belt Pack Transmitter worn by worker generates a panic alarm either by pushing a panic button or by lack of motion.

T3 repeater is mounted on the outside of the facility if outdoor coverage is required.

MS 900 receives alarm from **SC 300** and immediately initiates a dial out session.

Notification alarms can also be sent to other **SC 300** belt packs within the facility to alert co workers of a potential emergency.

24 hr. security desk

On call cell phone

Call Center

Automatic Dialer Receives alarm notification from **MS 900** and dials preprogrammed numbers to notify monitor of an emergency/man down situation

Recipient of the Alarm Call initiates emergency response plan.
